A. Select Quick Standard Reports

Death Counts by Year by County
 Leading Causes of Death by Year
 Death Counts by Age Groups by County
 Death Counts by Sex by Race by County
 Death Counts by Sex by Ethnicity by County
 Death Counts by Year by Cause of Death
 Maternal Death Counts by Year

B. Create a Custom Report

1. Deaths: ☒ Resident ☐ Recorded

2. Add/Remove Row Variables: Add/Remove Rows

3. Add/Remove Column Variables: Add/Remove Columns

4. Add/Remove Filters: Add/Remove Filters

5. Report Type: Counts only

C. Refine Current Selections (Limit selections or drag-and-drop between Rows, Columns, and Filters)

Rows (Maximum 3 items)

Residence Zip code
✕ ✕

Columns (Maximum 4 items)

Measures
113 Causes of Death
✕ ✕

Filters (Use Filters to limit results) Maximum 5 items

Year : Multiple

D. Your Current Report

Table
Chart

Resident Death Counts by 113 Causes of Death by Residence Zip code

Year=2014, 2015, 2016, 2017, 2018

Death Counts

32614	0	0	0	0	
32615	13	138	4	1	

Data Note(s)

- Deaths are reported based on single underlying cause of death unless stated otherwise.
- Provisional death data is subject to change and is updated every Sunday at approximately 7:20 pm. Once final data is posted for a data year, that data does not change.
- Use caution when interpreting rates based on small numbers of events. Rates are considered unstable if they are based on fewer than 5 events or if the denominator (population at risk) is fewer than 20. Use of this tool is for analytical and statistical purposes only.
- HIV/AIDS, Suicide, and Pediatric AIDS data is not available for zipcodes
- This application is best viewed by using Microsoft Internet Explorer
